

MICHIGAN AIR LINE TRAIL

BENCH DONATION PROGRAM

Updated: March 2023

A limited number of locations are eligible for a donated bench alongside the trail to commemorate a person, group or organization.

Total cost is dependent on the installation cost being donated by the bench purchaser or the community in which the bench is located, and may vary by instance.

Due to their very unique & custom design, benches on the Michigan Air Line Trail are more expensive than other typical trail benches are. The base bench cost, excluding installation, is \$1,850. This includes the bench, embedded dedication plaque and freight. It does not include the cost of the decorative round Air Line logo color medallions on either side of the bench, but those will be paid for by another generous donor.

The brass dedication plaque measures 10" wide by 2" high and can contain up to three lines of type with a total of 56 characters per line.

Donations are good for the working life of the bench, or 25 years. After that period there will be an option to renew a bench sponsorship.

To begin the process of donating and placing a bench, please reach out to John Hensler, Trail Manager at manager@miairlinetrail.com.
